

04/12/16

CAPRI - Capri is a full grain, aniline drum-dyed leather with an ageless quality that appeals to the adventurous spirit. Capri has a soft buttery hand and the timeless look of an Old World Classic. Waxes and oils are used to create a crackled, rustic appearance. Use cleaning code #1.

CISCO - Cisco is a full aniline, hand-rubbed leather available in a color palette featuring rich earthtones. Each hide will exhibit some color variation due to the aniline dyeing process, and hand-rubbing. Cisco is soft and drapable, and is characterized by elements of casual tradition. Use cleaning code #2.

DECADENCE - Decadence is a soft luxurious leather with an elegant buttery hand much like that of a pure aniline. Although it has the look and feel of natural leather, it does have a slight top coat. The color palette was inspired by nostalgia of the 1950's and offers something for every lifestyle. Use cleaning code #1.

ECHO - Echo is created by using a soft oil tannage process, followed by a paraffin top coat to provide a clear, translucent finish. A vibrant pull-up effect producing rich contrasts in color enhance the beauty of this leather. Echo will continue to burnish and polish over time, aging like a fine antique. This leather may be used in any application from Contemporary to Traditional. Use cleaning code #1.

ESTATE - Estate is a fully aniline dyed leather finished up to the top coat with water soluble pigments. The top coat is then hand-rubbed after upholstery to produce a rich, burnished antiqued look. This is achieved by highlighting the deep contrasts between the top coat and the base-coat simulating the aging process and recreating the charm of "something old". The handwork ensures that each piece will be unique, having its own depth and character. A top coat sealant is the last step of this process. Use cleaning code #2.

FIESTA - Fiesta was designed to emulate a 19th century aged wood effect. Its distressed, crackled appearance is achieved with the use of waxes and preserved in the finish while still allowing some color pull. Pigments and waxes are combined for better color consistency. Fiesta will present an authentic aged appearance that looks like an aniline pull-up but performs like a semi-aniline. Use cleaning code #1

HARNESS - Harness is a full grain, fully aniline dyed leather with a unique, soft wax top finish that is processed under extreme heat and pressure to provide a rich polished surface with a transparent top. Harness is the essence of "natural" leather as this clear, wax finish reveals all the features of full grain leather and highlights the rich, natural toning throughout the hide. Please use a dry cloth to remove residual dust and remove ordinary dirt and smudges with just a lightly damp cloth. Use cleaning code #1.

HEIRLOOM - An exclusive tanning process creates the touch and feel of fine garment leather for Heirloom. With a subtle hand-rubbed effect, this leather has a traditional, aged look coupled with the luxurious, almost calfskin touch. Heirloom is custom made to order so longer lead times will apply. Use cleaning code #2.

HENLEY - Henley is a protected top grain leather with a soft, silky hand and beautiful drape. A mild mottled effect can be seen throughout each hide creating warm highlights and depth. The color palette features an array of colors and will compliment any lifestyle. The wearability of Henley makes it a perfect choice for family rooms and high traffic areas. Use cleaning code #2

04/12/16

LAREDO - Laredo is a hand-rubbed leather in rich warm earth tones. Each hide bears the signature technique of the craftsman who created it. Due to the hand-work involved, not two hides will be exactly the same and each piece will possess a unique character. Laredo is custom made to order so longer lead times will apply. Use Cleaning Code #2.

OASIS - Oasis is a beautiful leather which combines a sophisticated polished finish with a soft, supple feel. Oils added during the drumming stage of the tanning process are ironed and burned to produce this unique finish and subtle variation in tones within each hide. Use cleaning code #1.

OLD ENGLISH - Old English is a beautiful leather with rich colors that glimmer to the surface through layers of finishing oils. Each hide has a light pull-up and polished effect which adds to the refined, yet casual, character of this leather. Use Cleaning Code #1.

OUTBACK - Outback embodies Mother Nature's signature beauty with an aged and distressed look created by combining waxes and oils during the tanning process. Soft to the touch and full of character, Outback is designed to give any piece an authentic aged look. It is the ideal leather for casual living spaces. Use Cleaning Code #1.

RELIC - Relic is tanned on European hides and embodies both casual sophistication and rustic elegance. Wax is used in the tanning process, and then the hides are milled extensively and ironed to achieve this unique distressed antique appearance, reminiscent of a well worn English saddle. Use cleaning code #1.

RETREAT - Retreat is a leather with truly unique personality and character. Light hand-sanding accentuates the natural markings Mother Nature has provided. Some wax is added to create a slight pull-up effect, followed by a coat of silicon to soften the raspy surface. Retreat is truly rustic in every sense of the word. Range marks, scars and significant variations in color are part of its beauty and should be expected. Use cleaning code #1.

REVELATION - Revelation boasts a soft hand and subtle two-tone effect and provides a truly great value. The extensive color line offers something that has appeal for either traditional or transitional living environments. Use Cleaning Code #2.

SEVILLE - Seville is a beautiful leather with a tipped grain and striking contrast in color in the peaks and valleys of the grain. This tipping is achieved naturally during the milling process which also gives Seville its soft hand and subtle sheen. Use cleaning code #1.

SIERRA - Sierra is a sophisticated leather inspired by the need for a luxury leather that is also livable. Sierra is a true aniline oil pull-up with a rich color palette that adds depth and style to any environment. The pull-up effect is subtle, classy and very smooth. This leather may be used in any application from Contemporary to Traditional. Use Cleaning Code #1.

04/12/16

SU CASA - Su Casa is infused with natural oils to produce a soft subtle hand. Additional dry milling of the hides create a color burst within each hide as the leather is pulled and applied to different styles. Su Casa will exhibit natural shading, and Mother Nature's handiwork such as scars and other markings. Su Casa is perfect for Rustic Traditional and easy living environments. Use Cleaning Code #1.

THOROUGHbred - Thoroughbred's color palette has a fresh mix of earthy colors and provides a rich, warm feeling to any style on which it is applied. A full grain leather with an ever-so-slight two-tone effect, Thoroughbred will appeal to both the casual and sophisticated consumer. Its charm and livability makes it a great leather for all environments, from traditional to contemporary. Use cleaning code #1.

TROUBADOUR - Troubadour is a savvy well rounded leather with a collaboration of style and structure. The rounded pebble grain is stippled with a tonal effect applied to provide textural definition. The earth tone color palette makes it an excellent leather for either traditional or contemporary lifestyles. Use Cleaning Code #2.

TUCSON - Tucson may best be described as rugged and handsome. The worn, burnished look of this leather is created by blending waxes with heat and pressure giving it a distinctive appearance. Relaxed and casual by nature, Tucson will complement those cozy, rustic environments. Use Cleaning Code #1.

ZODIAC - Zodiac visually features one of the more expensive products in the market today. It has an exceptional supple softness. The mild two-tone effect and color pallet lend characteristics perfect for today's transitional or traditional lifestyles. Use cleaning code #2.
